Sirs:

REQUEST FOR REFUND

Deposit Account 12-0425 was charged \$135.00 for claims-multiple dependent (Small Entity) (Fee Code 969) (Control No. 135) and \$18.00 for claims-extra total over twenty (Fee Code 967) (Control No. 136) on April 26, 2001.

However, no claim fee charge was authorized and, besides, a Preliminary Amendment was filed on March 6, 2001 to delete the multiple claim dependencies and add one additional dependent claim for a total of 21 claims. Copies of the Preliminary Amendment and its postcard receipt are attached.

Each paper letter or communication relating to an international application during the international stage for which a date of filing is to be obtained as of the date of mailing must have its own certificate and the "Express Mail" label number as a part thereof or attached thereto. When, as here, the certification is presented on a separate sheet, that sheet must (1) be signed and (2) fully identify and be securely attached to the paper or fee it accompanies. Identification should include the serial number and filing date of the application as well as the type of paper being filed, e.g. complete application, specification and drawings, responses to rejection or refusal, notice of appeal, etc. If the serial number of the application is not known, the identification should include at least the name of the inventor(s) and the title of the invention.

The label number need not be placed on each page. It should, however, be placed on the first page of each separate document, such as, a new application, amendment, assignment, and transmittal letter or a fee, along with the certificate of mailing by "Express Mail". Although the label number may be on checks, such a practice is not required. In order not to deface formal drawings it is suggested that the label number be placed on the back of each formal drawing or the drawings be accompanied by a set of informal drawings on which the label number is placed.
